To download playlists to your watch, you need a computer with a Wi-Fi connection and the free Fitbit Connect app.. All you have to do is install Fitbit Connect — a free software app that syncs your Fitbit data to your personal computer.. After you have downloaded the app, open it to go through the install process You can then add your Fitbit and sync your fitness information to the app on your Mac.. See How do I download playlists to my Fitbit watch? below for details on how to install the apps and download playlistsKeep in mind you can only transfer files that you own or don’t require a license.. With the Music app on your Fitbit watch*, you can store and play several hours worth of your favorite songs and podcasts right on your wrist.. After you download playlists to your watch, connect Bluetooth headphones or another audio device to listen to your tracks.. Rebecca

Paredes January 13th, 2016Are you ready to ramp up your workout? Fitbit devices sync with your phone's app to make it as easy as possible for you to record your activity data. ae05505a44 [Ntfs For Mac Mojave Crack](#)
